

**Statewide Shooting Range Update**  
For the Arizona Game and Fish Commission  
August 9, 2008  
Flagstaff, Arizona

**Northern Arizona Shooting Range**

- **Forest Service Coordination** – The Department provided the CNF the following information as requested as part of the Feasibility Analysis for the land transfer in June:
  1. Copies of the Northern Arizona Regional Shooting Facility site selection and evaluation documents prepared by the Department and Loan Simpson Design, Inc. (consultant) on the selection criteria used for identifying the Willard Springs site;
  2. Order Preliminary Title Commitments for all of the non-Federal (State) parcels;
  3. Prepare Department’s reservations and conditions on exchange parcels;
  4. Provide information about buildings or other substantial improvements on the non-Federal parcels.

The Department is expecting a Forest Service decision on the Feasibility Analysis in September.

- **Sound Study** – Per Commission direction, the Department will conduct a second sound study to address local community concerns as part of the NEPA process after the Feasibility Analysis is completed.
